Suraj Pillai

Pune, Maharashtra | pillai.suraj004@gmail.com | 9834992377 | LinkedIn | GitHub

Professional Summary

B.E. Computer Science student with hands-on experience building full-stack web applications and REST APIs. Proficient in Java, JavaScript, Node.js, and Spring Boot, with a strong foundation in Data Structures and Algorithms. Seeking an SDE role to contribute to scalable, real-world systems.

Technical Skills

- **Programming Languages:** Java, JavaScript, C++, Python, SQL
- **Backend & Frameworks:** Spring Boot, Spring Security, Node.js, Express.js
- **Frontend:** React, JavaScript, EJS
- **Databases:** MySQL, MongoDB, Mongoose
- **Developer Tools & Platforms:**Git, GitHub, Docker, Postman, IntelliJ IDEA, Eclipse, Vercel, Render
- **Core Concepts:** REST APIs, CRUD Operations, JWT Authentication & Authorization, Role-Based Access Control, Object-Oriented Programming, Data Structures & Algorithms

Projects

AI Report Analyzer — RAG-Based Document Intelligence Platform *Jul 2026*

Java, Spring Boot, React, MySQL, ChromaDB, Gemini | GitHub

- Developed a Retrieval-Augmented Generation (RAG) platform enabling document upload, AI-powered summarization, and conversational Q&A over user documents.
- Built the document-processing pipeline using Apache Tika for text extraction, Gemini embeddings, and ChromaDB for semantic vector search, returning cited, source-grounded answers.
- Implemented JWT authentication with per-user document isolation and secure access control, and containerized the full stack with Docker for reproducible deployment.

AI Discipline Tracking System *Feb 2026*

React.js, Node.js, Express.js, MongoDB, Gemini API | Live Demo

- Developed a MERN-stack habit-tracking application with secure authentication, full CRUD operations, real-time streak analytics, and GitHub-style activity heatmaps.
- Built gamification features including a friend leaderboard, scheduled email notifications via cron jobs, a responsive PWA, and a role-based admin dashboard.

Attendance Management System *Jun 2025*

Node.js, Express.js, MongoDB, HTML, CSS, JavaScript | Live Demo

- Built a full-stack attendance management system with role-based access control supporting distinct teacher and student workflows.
- Implemented JWT-based authentication, real-time attendance tracking, and automated report generation to reduce manual record-keeping.

Education

B.E. in Computer Science and Engineering *Aug 2023 – Jun 2027*

Pune, Maharashtra | Current CGPA: 8.2 / 10

Certifications & Achievements

- Java (Basic) Certificate — HackerRank: Java fundamentals including OOP, data types, control flow, and exception handling.
- DSA in Java: Certified in Data Structures, Algorithms, and Problem Solving using Java.
- Full Stack Web Development: Certified in front-end and back-end integration (HTML, CSS, JavaScript, Node.js, MongoDB).
- Smart India Hackathon (SIH) 2024: Selected for and participated in the internal round, demonstrating problem-solving and team collaboration.
